Note. — Summary of stellar mass estimations, the color of each component, and the color difference between the inner and outer components for Es included in this work. For each galaxy, the B-V and B-R color information with fixed or free sky background are shown in different rows. The free-background ones are recommended. Col. (1) Galaxy name. Col. (2) Total stellar mass of the galaxy. Col. (3) Stellar mass of the inner component. Col. (4) Stellar mass of the outer component. Col. (5) Type of color. Col. (6) Color of the center component. Col. (7) Color of the intermediate component. Col. (8) Color of the outer component. Col. (9) Color of the inner component. Col. (10) The color difference between the inner and outer components.
